4. Other Career

Christophe Xerri has 25 years of experience in nuclear fuel cycle and waste management. Before his appointment to the IAEA, he served from 2011 to 2015 as Counsellor for Nuclear Affairs to the French Embassy in Japan and in Mongolia.

He joined COGEMA (now AREVA) in 1991, in the field of spent fuel and waste management. He then moved to uranium mining and enrichment technology. Later on he worked in non-proliferation and international relations, and then was assigned to the office of the President of AREVA.

He moved to Japan in 2007 and became Vice President of Mitsubishi Nuclear Fuel in 2009, where he was also involved in handling the consequences of the earthquake and tsunami of March 2011.
