

Niwa History

Name : Ohtsura Niwa

Present post : Radiation Effects Research Foundation
Chairman/Representative Director

licentiate : Kyoto University Master of Science
Stanford University Ph.D.

Education :

April, 1963 : Kyoto University science department entrance

March, 1967 : Kyoto University science department graduation (Zoology Speciality)

April, 1967 : Enrolled in Postgraduate Course, Kyoto University (zoology; Department of Radiobiology [under Professor Mikita Kato])

March, 1969 : Completed above and obtained master degree

April, 1969 : Start the doctor's course (Radiation biology)

March, 1971 : Take from the course

March, 1971 : Studying abroad to Stanford University (Research assistant at Medical department)

September, 1972 : Enrolled in Postgraduate course, Stanford University (biophysics)
Supervisor : Pr. Philip C. Hanawalt
Pr. Henry S. Kaplan

May, 1975 : Completed above and obtained Ph.D. degree

Experience :

March, 1971 : Stanford University medical department research assistant (A radiology, Professor Henry S. Kaplan)

July, 1975 : Kyoto University Faculty of Medicine
Assistant, Department of Experimental Radiology

August, 1984 : Hiroshima University Research Institute for Nuclear Medicine and Biology
Assistant Professor, Department of Pathology

April, 1991 : Professor, (department above renamed as the Department of Molecular Pathology with reorganization)

April, 1997 : Kyoto University Radiation Biology Center, Professor

April, 2007 : National Institute of Radiological Sciences
Deputy Director, Research Center for Charged Particle Therapy

June, 2009 : BioMedics, Inc. Representative Director and President

September, 2012 : Fukushima Medical University, Extraordinary Professor

June, 2015 : Present post

Rewards and punishments :

May, 2005 : Roentgen Medal

February, 2015 : The Takashi Nagai Memorial Nagasaki Peace Award

May, 2015 : Henry S Kaplan Distinguished Scientist Award
