

Dr Mina Golshan

"Dr Golshan is Deputy Chief Inspector and Director for the Sellafield, Decommissioning, Fuel and Waste (SDFW) Division at the Office for Nuclear Regulation (ONR) and a member of ONR's Senior Management Team. The SDFW Division covers the regulation of the Sellafield site, defuelling and decommissioning Magnox reactors and restoration sites, as well as fuel manufacturing and waste management sites - 21 sites out of the 36 licensed nuclear sites in Great Britain. Her division also provides advice to the UK Government on waste management and decommissioning policy matters.

Dr Golshan has a wide regulatory experience and covered a range of roles within ONR including establishing ONR's Regulatory Oversight function in 2012. The Function provides independent assurance to the Chief Nuclear Inspector and the ONR Board on the effectiveness of ONR's regulatory functions. Her earlier career involved a period of time with the Health and Safety Executive's Hazardous Installations Directorate and before that a number of positions in the research and consultancy in the public and private sectors.

Dr Golshan has an extensive international experience including as Country Group Chair at the 7th Review Meeting of the Convention on Nuclear Safety in 2017 and as the Project Officer leading the UK report to the 6th Review Meeting of the CNS in 2013. She was the UK representative at the IAEA Nuclear Safety Standards Committee, NUSC, from 2014 to 2016."
