

Chinatsu Iwamoto  
Iwamoto Sheet Metal Industry Co., Ltd.

Born in Futaba Town, Ms. Iwamoto now leads an evacuation life in Nasushiobara City, Tochigi Prefecture.

After graduating from a university in Tokyo, she joined her father's company which conducts an architectural sheet metal business, then went on to establish and manage a first-class architect office. Although the earthquake disaster caused great damage to the company, the employees gathered from different evacuation places and resumed their business once. Unfortunately, various circumstances prevented them from continuing their business, however, Ms. Iwamoto was able to receive cooperation of customers from before the disaster, and coupled with steady sales activities, she managed to continue the company. This year in June, she established a new company in Tomioka Town and made a fresh start.
